

## Other Arrangements

LT Scotland has made a number of other 'special arrangements'. Those marked with a 🍀 are exclusive to the education community in Scotland.

### Adobe School Collection

The Adobe School Collection is only available to primary and secondary schools. It includes Photoshop Elements and Premiere Elements. Please note that the Adobe School Collection is only available for the Windows platform.

### 🍀 AlphaSmart 3000 IR bundled with Co:Writer Smart Applet

Building on the current arrangement LT Scotland has with Don Johnston Special Needs, LT Scotland can now supply to you an AlphaSmart 3000 IR with Co:Writer Smart Applet pre-installed at a reduced cost. Please note this service is only available to Scottish education.

(For information on Co:Writer Smart Applet please go to page 33)

### 🍀 BoardMaker from Don Johnston N

Following requests from customers in Scotland, LT Scotland worked with Don Johnston to promote BoardMaker at a specially reduced price for a limited time. Following the success of that promotion, it was agreed that LT Scotland would continue to supply BoardMaker to Scottish education at over 65 per cent off the usual selling price.

### 🍀 Crick Software

LT Scotland has been working with Crick Software and can now offer 30 per cent discount on Wordbar and 20 per cent discount on all the Crick Software titles powered by Clicker. These products include Clicker Animations, Planet Wobble, Clicker Books and the Find Out and Write About series. For more information on any of these resources from Crick please go to [www.cricksoft.com](http://www.cricksoft.com).

## \*Kidspiration and Inspiration

Kidspiration is a visual learning tool for early years and pupils with additional support needs and provides a natural, intuitive way to help emerging readers and writers begin to mind-map, categorise and organise their thoughts and information.

Inspiration can be used right across the curriculum in all subjects for idea webbing, planning and organising. Tools include outlining, diagramming, webbing and pre-writing to help develop thinking skills and to structure research or work.

Schools in Scotland have already received through Digital Resources for Scottish Schools a number of licences for both Inspiration and Kidspiration. Additional licences can be purchased under special pricing from LT Scotland.

Others in Scottish education that did not qualify to receive Kidspiration and Inspiration can purchase the complete pack including manual and CD-ROM from LT Scotland at more than 65 per cent off the suggested selling price.

Please note that since the distribution of Inspiration and Kidspiration a free upgrade is now available to download from
