

Penfriend XL

LT Scotland has negotiated with Penfriend for Penfriend XL to be available for purchase at a lower cost and in a flexible way.

Penfriend XL is a full screen reader, which has onscreen keyboards and word prediction in many European languages. It helps those with dyslexia, specific learning difficulties or physical disabilities to type more effectively by predicting the next word they intend to write. It is also of value to anyone learning, or using, foreign languages.

How does the scheme work?

If a school does not currently use Penfriend XL they must in the first instance purchase a full pack and thereafter additional licences.
