

Steps to Success in Managing Early Intervention

Steps to Success in Managing Classroom Organisation

- Create bright, stimulating and challenging teaching/learning areas
- Be aware of the diversity of learning styles
- Incorporate a range of teaching strategies within planning
- Establish classroom routines which facilitate independent learning
- Pay due regard to the breadth, balance and time allocation given to literacy and numeracy as defined by school policy
- Ensure resources are appropriate, accessible, identifiable and relevant to children's learning needs
- Target support personnel for maximum impact on pupils' learning
- Adopt a collaborative approach when planning for children's needs
